### **Project SEARCH Reverse Job Fair: Connecting employers with candidates who have developmental disabilities**

Project SEARCH is a 10 month initiative that provides high school students and young adults with developmental disabilities the skills and experience needed to be successful in the workplace.

Students gain these skills through partnerships with Project SEARCH site hosts: Manitoba Hydro, the Government of Manitoba and HSC Winnipeg and are ready to begin working upon completion of the Project SEARCH year, which ends in June. The Fair is organized for the ease of employers as business reps can, on a “come and go” basis, be introduced to 20 students who could qualify for positions they hire for in areas such as:

- **Material handling and warehouse** – picking/packing orders, shipping and receiving, stocking,
